EDUCATION

• Universidad Rey Juan Carlos

University Degree in Software Engineering

Madrid

2014 – 2019

EXPERIENCE

• Kelea

Technical Lead

Madrid

May 2026 - Present

- **Technical Leadership:** End-to-end project management, leading technical decisions. Backend architecture design for new developments and improvements.
- **Team Coordination:** Technical support to team members, team management and mentoring. Continuous coordination with business components and stakeholders.
- **Methodology:** Applied Spec Driven Development (SDD), defining technical specifications before writing code to ensure alignment and quality.
- **Technologies:** Java 21/25, Spring Framework 6/7, Hexagonal Architecture, Maven, GitHub, Openshift, PostgreSQL

Backend Software Engineer - Retail project

Sep 2024 - May - 2026

- **Backend Developer:** Java 21, Hexagonal architecture, DDD, Spring 6 and Maven
- **Testing:** JUnit, Mockito, Sonar and Grafana with K6 and Prometheus
- **Databases:** MariaDB, Dbeaver
- **CI/CD:** Github Actions y Openshift
- **DVCS:** Github, Jira y Git
- **SSOO:** Windows and Linux
- **Otras herramientas:** Microsoft Clarity, Swagger, Miro, Lombook and Notion

• Viewnext

Technical Lead - Proyecto IBM/Banco Santander

Madrid

Dec 2023 - Sep 2024

- **In addition to developer functions:** Requirements gathering, efficiency testing and code review, gitflow coordination, release generation and documentation, support to other developments.

Backend Software Engineer - IBM/Santander project

Feb 2021 - Sep 2024

- **Microservices Backend Developer:**
 - * **Java microservices:** : Java 11/17, Spring 5/6, Spring WebFlux, Maven
 - * **Python microservices:** : Python 3, Flask framework and Kafka
- **Testing:** JUnit, Mockito, Sonar, Kiuwan, JMeter, Newman and Cilantum
- **Databases:** MongoDB and Oracle
- **CI/CD:** Jenkins, Github Actions and Openshift
- **DVCS:** Github, Jira, Confluence and Git
- **O.S:** Windows
- **Other tools:** Kibana, Dynatrace and Kafka

• Work4Data

Software Developer

Madrid

Sep 2018 - Dec 2020

- **Frontend and Backend developer:** Spring framework, AngularJS, Hibernate, JPA
- **Dev Environment:** Springboot 2 , SpringBatch 3, Java 8 to develop REST and SOAP services
- **Workflows:** Continuous integration and continuous deployment (Jenkins, Docker, Maven)
- **Databases:** PostgreSQL, OracleSQL and MSSQL
- **DVCS:** Gitlab , Jira y Git
- **O.S:** Linux

PROJECTS

- **WatchLog** | *Web application to manage your movie library* 2025 – Present
- **Portfolio** | *Web from 0 with HTML5 , CSS , JS without framework* 2017 – Present
- **ExpiringOnNetflixSoon** | *Python and Selenium* 2022 – 2023
- **Competitive Programing Repository** | *Solving competitive programming problems in Java 8* 2018 – 2022

COURSES

- **GitHub Foundations** | *Microsoft* 2025
- **Product-led Certification** | *Pendo* 2025
- **Reactive Architecture: Domain Driven Design** | *Cognitive Class* 2025
- **Modern software architectures** | *Udemy* 2024
- **Kafka Stream for data procesing (Kafka V3)** | *Udemy* 2024
- **Java 21, Java 17, Java 11 and Advance Java 8** | *Udemy* 2023
- **Reactive Programming with Spring Boot 2 and Spring WebFlux** | *Udemy* 2021
- **Docker and Kubernetes course, introduction to AWS** | *Udemy* 2020
- **Git and Workflows introduction** | *Udemy* 2020
- **Competitive programming course** | *URJC* 2019
- **TOEIC Listening and Reading** | *TOEIC* 2019
- **Scrum Fundamentals Certified** | *SCRUMStudy* 2019
- **Cybersecurity Attacks and Countermeasures** | *URJC* 2018
